

Valplast® Flexible Partial

Lightweight & Comfortable

Keating Dental Lab has provided dental practices with the highest quality restorations, paired with reliable, friendly service since 2002.

As a family-run full-service dental lab, we treat our dentists like we would our own. Our goal is to provide doctors with the expertise of a national lab, and the convenience of a local laboratory partner.

THE BEST IN DURABLE AND AESTHETIC PARTIALS

Fabricated from form-fitting acrylic, Valplast® partials offer a perfect flexible partial solution. Not only is this flexible partial lightweight, but it is self-adjusting to the contours of the wearer's mouth while they're talking or eating.

The material is also durable enough to eliminate the need for metal clasps. In addition, its natural hue blends with surrounding gums, making Valplast® partials more aesthetic than many other options.

Add to the benefits of this flexible partial the fact that the material is stain- and odor-resistant, and you have an option that is very appealing to patients. Patients want durability, comfort, and aesthetics all in one flexible partial solution, and Valplast® partials deliver all of that and more in one easy, affordable restoration.

We invite you to visit us at keatingdentallab.com to see all we have to offer or call 800-433-9833 to speak with one of our friendly representatives.
