

KDZ Bruxer® SRZ

Screw-Retained Zirconia Crown

Keating Dental Lab has provided dental practices with the highest quality restorations, paired with reliable, friendly service since 2002.

As a family-run full-service dental lab, we treat our dentists like we would our own. Our goal is to provide doctors with the expertise of a national lab, and the convenience of a local laboratory partner.

CHOOSE THE BEST IN SCREW-RETAINED RESTORATIONS

The days of traditional implant complications are over with Keating's KDZ Bruxer® SRZ screw-retained zirconia. Problems can occur when using traditional restorative methods such as peri-implantitis, caused by excessive subgingival cementation, implant fracturing, bone loss and loss of osseointegration. Keating Dental Lab's screw-retained zirconia is backed by our 3-year warranty, and eliminates the common complications of cement-retained implants, providing more durability and translucency than traditional implant methods.

EVERY PACKAGE INCLUDES:

- Restoration, design & fabrication
- Screw and Ti interface
- Soft tissue model
